1. Lightning talks: in describing series, include time step, time span, and whether or not you massaged data (e.g., removed seasonal mean). Aim for non-specialist audience.
2. Color coding & grading. Recall blue and yellow are 0.5 points each (not 1 each).
3. No need to get finer than 0.1 in deductions
4. Use acrobat reader "text box" for grade at top of page 1, and for any explaining subtractions of points
